10. Discussion points

Student discussion:

The discussion centered around internships in student groups. The following issues were raised:

- The competition for positions is very fierce, and many students are struggling to find internships
- In some subjects, students have very little time to find internships
- There is a language barrier, with many international students locked out because internships often require fluent Swedish.
- A suggestion was raised for some sort of internship-focused career day

PhD discussion:

- The discussion once again related to the difficulty in starting up after Covid. Some councils reported having success with organized kick-off events or PhD dinners
- There was also a discussion of the different ways that various departments handle prolongation.
